

AMENDMENTS TO THE CLAIMS

This listing will replace all previous listings in this application.

**Listing of Claims:**

1. (Currently amended) Cosmetic compositions comprising *inter alia* small magnetic particles ~~characterized by~~ which have a magnetic field adapted and which are configured to be topically administrated on ~~[[the]]~~ skin.
2. (Currently amended) The cosmetic compositions according to claim 1, wherein the magnetic particles are obtained from ~~[[the]]~~ salts of the Dead Sea.
3. (Currently amended) The cosmetic compositions according to claim 1, wherein the magnetic particles are selected from iron,  $\text{Fe}_2\text{O}_3$ , strontium hexaferrite or any other ferromagnetic element or compound.
4. (Original) The cosmetic compositions according to claim 1, wherein the magnetic particles are selected from nickel, cobalt, neodymium, samarium or any mixture thereof.
5. (Currently amended) The cosmetic compositions according to claim 1, wherein the magnetic particles are included ~~in the form of~~ creams, gels, lotions, masks, ointments, emulsions, foams, soaps, shampoos, bath salts or aromatic oils.
6. (Original) The cosmetic compositions according to claim 1, in the form selected at least one of the group selected from Dead Sea bath salts; Dead Sea mineral mud; hydrophilic gels; lipophilic gels; protective dermatological ointments; ointments in water-in-oil (W/O) emulsions; dermatological anhydrous pastes; dermatological tinctures; nourishing face creams; nourishing face cream in W/O emulsions; moisturizing face creams; moisturizing face creams; moisturizing face cream in W/O emulsions; moisturizing face gels; hair and scalp conditioning mask or scalp treatment shampoos.

7. (Currently amended) The cosmetic compositions according to claim 1, wherein the magnetic particles are ~~either~~ one of solubilized, dispersed or suspended in waterborne or solvent-base emulsions, solutions or any combination thereof.
8. (Original) The cosmetic compositions according to claim 1, additionally comprising additives, selected from antioxidants, vitamins, medically active agents, chemotherapeutic agents, radio therapeutic agents, humidifiers, biocides, pigments, smell agents, odorants, colorants, W absorbents, UV blockage agents, polymers, thickeners, co-solvents, emulsifiers, surfactants or vegetable extracts.
9. (Currently amended) The cosmetic compositions according to claim 1, wherein the ~~cosmetic compositions~~ magnetic particles are suspended in polyallcyl siloxane.
10. (Currently amended) The cosmetic compositions according to claim 1, wherein the magnetic particles ~~are characterized as~~ comprise nano-magnetic particles.
11. (Currently amended) The cosmetic compositions according to claim ~~[[9]]~~ 10, wherein the nano-magnetic particles ~~are ranges~~ range from 2 to 20 nm in maximum diameter.
12. (Currently amended) The cosmetic compositions according to claim ~~[[9]]~~ 10, wherein the nano-magnetic particles ~~are ranges~~ range from 20 to 200 nm in diameter.
13. (Original) The cosmetic compositions according to claim 1, wherein the magnetic particles are included in an article selected from an anti-aging magnetic head/neck wrap or an anti-aging facial mask.
14. (Original) The ~~use of the cosmetic compositions~~ according to claim 1, wherein the magnetic particles are included in at least one of [[as]] an external layer of bandages, dressings, compresses or [[warps]] wraps, which are so configured to constantly approached to approach and be in an intimate contact with the patient's skin.
